CONTENTS

Volume 41. No. 1—July

EDITORIAL
Mumps vaccines—current status 1
Forsey, T.

MICROBIAL PATHOGENICITY
Interactions of intestinal mediators in the mode of action of cholera toxin 3
Peterson, J. W., Lu, Ying, Duncan, S., Cantu, J. and Chopra, A. K.

A comparative study of the aggregation of human, rat and rabbit platelets by members of the *Streptococcus sanguis* group 10
Manning, J. E., Geyelin, A. J., Ansmits, L. M., Oakey, H. J. and Knox, K. W.

Agglutination of "*Streptococcus milleri*" by lectins 14
Kellens, J. T. C., Jacobs, J. A., Peumans, W. J. and Stobberingh, Ellen E.

IMMUNISATION AND HOST RESPONSE
Differences in the immune responses of mice and sheep to an aromatic-dependent mutant of *Salmonella typhimurium* 20
Brennan, F. R., Oliver, J. J. and Baird, G. D.

Passive immunisation against experimental salmonellosis in mice by orally administered hen egg-yolk antibodies specific for 14-kDa fimbriae of *Salmonella* Enteritidis 29
Peralta, R. C., Yokoyama, H., Ikemori, Y., Kuroki, M. and Kodama, Y.

CLINICAL ANAEROBIC MICROBIOLOGY
The clinical importance of gram-positive anaerobic cocci isolated at St Bartholomew's Hospital, London, in 1987 36
Murdoch, D. A., Mitchelmore, I. J. and Tabaqchali, S.

The influence of growth medium on serum sensitivity of *Bacteroides* species 45
Allan, E. and Poxton, I. R.

DIAGNOSTIC MICROBIOLOGY
Recommendations for use of the polymerase chain reaction in the diagnosis of *Bordetella pertussis* infections 51
Meade, B. D. and Bollen, A.

Fumarate redctase of *Helicobacter pylori*—an immunogenic protein 56
Birkholz, S., Knipp, U., Lemma, E., Kröger, A. and Opferkuch, W.

EPIDEMIOLOGICAL TYPING
Genomic DNA fingerprinting of clinical *Haemophilus influenzae* isolates by polymerase chain reaction amplification: comparison with major outer-membrane protein and restriction fragment length polymorphism analysis 63
van Belkum, A., Duim, Birgitta, Regelink, Annette, Möller, Lieke, Quint, Wim and van Alphen, L.

ANNOUNCEMENTS 69
BOOKS RECEIVED 70

Volume 41. No. 2—August

EDITORIAL
Hantavirus infection 71
Bennett, M. and Hart, C. A.

REVIEW ARTICLE
The role of mycobacteria in Crohn's Disease 74
Thompson, Daphne E.

CLINICAL MYCOLOGY
The effect of nebulised pentamidine on the concentration of intra-oral *Candida albicans* in HIV-infected patients 95
Nolan, Anita, Lamey, P.-J., MacFarlane, T. W., Aitchison, T. C., Shaw, J. and Sirel, J. Y.

Rapid characterisation of *Candida albicans* by pyrolysis mass spectrometry 98
White, G. C., Sisson, P. R., Freeman, R. and Cookson, B. D.

CHARACTERISATION AND TYPING OF BACTERIA
Application of pyrolysis mass spectroscopy and SDS-PAGE in the study of the epidemiology of *Pseudomonas cepacia* in cystic fibrosis 106
Corkill, J. E., Sisson, P. R., Smyth, A., Deveney, J., Freeman, R., Shears, P., Heaf, D. and Hart, C. A.

A framework for IS*200*, 16S rRNA gene and plasmid-profile analysis in *Salmonella* serogroup D1 112
Stanley, J., Powell, N., Jones, C. and Burnens, A. P.

Analysis by pulsed-field gel electrophoresis of insertion mutations in the transferrin-binding system of *Haemophilus influenzae* type b 120
Curran, R., Hardie, K. R. and Towner, K. J.

MICROBIAL PATHOGENICITY
Virulence-associated factors in *Escherichia coli* strains isolated from children with urinary tract infections 127
Siegfried, L., Kmeťová, Marta, Puzová, Hana, Molokáčová, Maria and Filka, J.

Promotion of *Escherichia coli* adherence to rubber slices by adsorbed fibronectin 133
Yu, J. L., Ljungh, Åsa, Andersson, R., Jakab, Erszébet, Bengmark, S. and Wadström, T.

K1, K5 and O antigens of *Escherichia coli* in relation to serum killing *via* the classical and alternative complement pathways 139
Devine, Deirdre A. and Roberts, A. P.

Biochemical differences among human and animal streptococci of Lancefield group C or group G 145
Efstratiou, Androulla, Colman, G., Hahn, G., Timoney, J. F., Boeufgras, J. M. and Monget, D.

ANNOUNCEMENT 148
BOOKS RECEIVED 148

Volume 41. No. 3—September

REVIEW ARTICLE
25 Years on—an update on topics selected from the first volume of the *Journal* 149
Edited by Duerden, B. I.

EPIDEMIOLOGY
Epidemiology of urogenital infections caused by *Chlamydia trachomatis* and outline of characteristic features of patients at risk 168
Sessa, R., Latino, M. A., Magliano, E. M., Nicosia, R., Pustorino, R., Santino, I., Gordini, C., Clerici, P., Colombo, R. and Del Piano, M.

IMMUNOLOGICAL RESPONSE TO INFECTION
Purification and partial characterisation of a novel 66-kDa seroreactive protein of *Mycobacterium tuberculosis* $H_{37}Rv$ 173
Deshpande, R. G., Khan, M. B., Bhat, D. A. and Navalkar, R. G.

Murine monoclonal antibody elicited with antibiotic-exposed *Escherichia coli* exerts protective capacity in experimental bacterial infections 179
Lun, M. T., Amatucci, A. M., Raponi, G., Filadoro, F., Bartolazzi, A., Fraioli, R., Natali, P. G. and Mancini, C.

PATHOGENIC MECHANISMS

Production of specific glycosidase activities by *Streptococcus intermedius* strain UNS35 grown in the presence of mucin 184
Homer, K. A., Whiley, R. A. and Beighton, D.

Detection of intestinal and extra-intestinal strains of enterotoxigenic *Bacteroides fragilis* by the HT-29 cytotoxicity assay 191
Pantosti, Annalisa, Cerquetti, Marina, Colangeli, R. and D'Ambrosio, F.

Bone resorbing activity of surface-associated material from *Actinobacillus actinomycetemcomitans and Eikenella corrodens* 197
Meghji, S., Wilson, M., Barber, P. and Henderson, B.

MYCOLOGY

An in-vitro study of the sterol content and toxin production of *Fusarium* isolates from mycotic keratitis 204
Raza, S. K., Mallet, A. I., Howell, S. A. and Thomas, P. A.

ANTIBIOTIC RESISTANCE

Heterogeneity at the β-lactamase structural gene *amp*C amongst *Citrobacter* spp. assessed by polymerase chain reaction analysis: potential for typing at a molecular level 209
Jones, M. E., Avison, M. B., Damdinsuren, Enke, MacGowan, A. P. and Bennett, P. M.

BOOKS RECEIVED 215

ANNOUNCEMENT 216

Volume 41. No. 4—October

EDITORIAL

Cyclospora: another "new" pathogen 217
Casemore, D. P.

CLINICAL VIROLOGY

Hepatitis C RNA prevalence in a Western European organ donor pool and virus transmission by organ transplantation 220
Candinas, D., Joller-Jemelka, Helen I., Schlumpf, R., Wicki, A., Mutimer, D. J., Keusch, G. and Largiadèr, F.

NEW DIAGNOSTIC METHODS

Development of a tissue culture assay system for *Campylobacter jejuni* cytotoxin and the influence of culture conditions on cytotoxin production 224
Misawa, N., Ohnishi, T., Itoh, K. and Takahashi, E.

Detection of *Streptococcus mutans* by PCR amplification of *spaP* gene 231
Ono, T., Hirota, K., Nemoto, K., Fernandez, E. J., Ota, F. and Fukui, K.

CHARACTERISATION AND TYPING OF BACTERIA

Lipo-oligosaccharide immunotyping of *Neisseria meningitidis* by a whole-cell ELISA with monoclonal antibodies 236
Scholten, R. J. P. M., Kuipers, B., Valkenburg, H. A., Dankert, J., Zollinger, W. D. and Poolman, J. T.

A comparative study of ribotyping and arbitrarily primed polymerase chain reaction for investigation of hospital outbreaks of *Acinetobacter baumannii* infection 244
Vila, J., Marcos, A., Llovet, T., Coll, P. and Jimenez De Anta, T.

BACTERIAL AND FUNGAL PATHOGENICITY

Adhesion and colonisation of *Candida krusei* on host surfaces 250
Samaranayake, Y. H., Wu, P. C., Samaranayake, L. P., So, M. and Yuen, K. Y.

Virulence of coagulase-deficient mutants of *Staphylococcus aureus* in experimental endocarditis 259
Baddour, L. M., Tayidi, M. M., Walker, E., McDevitt, D. and Foster, T. J.

Human urokinase, a serine proteinase, potentiates the in-vitro growth of micro-organisms which commonly infect burn patients 264
Hart, D. A. and Woods, D. E.

Genetic modification of a vaginal strain of *Lactobacillus fermentum* and its maintenance within the reproductive tract after intravaginal administration 272
Rush, C. M., Hafner, L. M. and Timms, P.

Effect of subinhibitory concentrations of antimicrobial agents on virulence factors of *Shigella flexneri* 2a and *Escherichia coli* O124 279
Tetz, V. V. and Norman, Larisa L.

ANTIMICROBIAL RESISTANCE
Detection by polymerase chain reaction of genes encoding aminoglycoside-modifying enzymes in methicillin-resistant *Staphylococcus aureus* isolates of epidemic phage types 282
Vanhoof, R., Godard, Claudine, Content, J., Nyssen, H. J., Hannecart-Pokorni, Eleonora and the Belgian Study Group of Hospital Infections (GDEPIH/GOSPIZ)

ANNOUNCEMENTS 291

BOOKS RECEIVED 292

Volume 41. No. 5—November

EDITORIAL
Fosfomycin trometamol and the single-dose treatment of cystitis 293
Greenwood, D.

REVIEW ARTICLE
CLINICAL MYCOLOGY
***Candida krusei*: biology, epidemiology, pathogenicity and clinical manifestations of an emerging pathogen** 295
Samaranayake, Yuthika H. and Samaranayake, L. P.

CLINICAL MYCOLOGY
Oxygen requirements of *Aspergillus* species 311
Hall, Linda A. and Denning, D. W.

NEW DIAGNOSTIC METHODS
Comparison of the ToxA test with cytotoxicity assay and culture for the detection of *Clostridium difficile*-associated diarrhoeal disease 316
Schué, V., Green, G. A. and Monteil, H.

Toxin production by *Clostridium difficile* in a defined medium with limited amino acids 319
Yamakawa, K., Kamiya, S., Meng, X. Q., Karasawa, T. and Nakamura, S.

CHARACTERISATION AND TYPING OF BACTERIA
Lectin typing of β-haemolytic streptococci of groups A and B 324
Muñoz, A., Lopez, A. and Llovo, J.

Characterisation of pathogenic *Yersinia enterocolitica* serogroups by pulsed-field gel electrophoresis of genomic *Not*I restriction fragments 329
Saken, Elisabeth, Roggenkamp, A., Aleksic, Stojanka and Heesemann, J.

EPIDEMIOLOGY
Pharyngeal carriage of *Neisseria meningitidis* before and after treatment of meningococcal disease 339
Weis, Nina and Lind, Inga

ANTIMICROBIAL RESISTANCE
Trimethoprim resistance in urinary pathogens in northern Scotland: epidemic spread of a resistance plasmid encoding the type Ib trimethoprim-resistant dihydrofolate reductase 343
Young, Hilary-Kay and Hillyear, J. K.

HOST RESPONSE TO INFECTION

The potential protective immune responses to synthetic peptides containing conserved epitopes of *Porphyromonas gingivalis* fimbrial protein 349
Ogawa, T.

Interaction between human polymorphonuclear leucocytes and bacteria released from in-vitro bacterial bio lm models 359
Yasuda, H., Ajiki, Y., Aoyama, J. A. and Yokota, T.

ANNOUNCEMENTS 368

BOOKS RECEIVED 369

Volume 41. No. 6—December

EDITORIAL

Molecular systematics and traditional medical microbiologists—problems and solutions 371
Pennington, T. H.

CLINICAL VIROLOGY

Assessment of hepatitis B "e" antigen and "e" antibody status—tests of status or status of tests? 374
Westmoreland, Diana, Parr, Angela and Thomas, Amanda J.

IMMUNOLOGICAL RESPONSE TO INFECTION

Skin reactivity and fibronectin-binding property of TB66 (66-kDa protein of *Mycobacterium tuberculosis*) 378
Deshpande, Rajashri G., Khan, Mahfuz B., Bhat, Deepashree A. and Navalkar, R. G.

Interaction of *Candida krusei* with human neutrophils *in vitro* 384
Richardson, M. D. and Donaldson, F.

DIAGNOSTIC MICROBIOLOGY

Rapid identification of micro-organisms from urinary tract infections by β-glucuronidase, phenylalanine deaminase, cytochrome oxidase and indole tests on isolation media 389
Giammanco, G. and Pignato, Sarina

Plasmid-coded DNA fragment developed as a specific gene probe for the identification of enteroaggregative *Escherichia coli* 393
Debroy, Chitrita, Bright, B. D., Wilson, R. A., Yealy, Jeanne, Kumar, R. and Bhan, M. K.

CLINICAL MICROBIOLOGY

Detection of enteroadherent *Escherichia coli* associated with diarrhoea in Italy 399
Morelli, R., Baldassarri, L., Falbo, V., Donelli, G. and Caprioli, A.

Outbreaks of food-poisoning associated with lecithinase-negative *Clostridium perfringens* 405
Brett, M. M.

MICROBIAL PATHOGENICITY

The effect of topical antimicrobial agents on the production of toxic shock syndrome toxin-1 408
Edwards-Jones, Valerie and Foster, H. A.

Degradation of hyaluronate by *Streptococcus intermedius* strain UNS 35 414
Homer, K. A., Grootveld, M. C., Hawkes, J., Naughton, D. P. and Beighton, D.

EPIDEMIOLOGICAL TYPING

The use of bacteriophages to differentiate serologically cross-reactive isolates of *Klebsiella pneumoniae* 423
Pieroni, P., Rennie, R. P., Ziola, B. and Deneer, H. G.

Antibiogram-resistogram typing scheme for methicillin-resistant *Staphylococcus aureus* 430
Rossney, A. S., Coleman, D. C. and Keane, C. T.

Evaluation of an antibiogram-resistogram typing scheme for methicillin-resistant *Staphylococcus aureus* 441
Rossney, A. S., Coleman, D. C. and Keane, C. T.

ANNOUNCEMENT 448
